Ivano Technologies

Company Profile **2026**

Technology products and services for African businesses.

01 ABOUT US

Technology built for how African organisations work.

Ivano Technologies Ltd is a Nigerian technology company that designs, builds and runs software and digital systems for businesses, non-governmental organisations and public-sector bodies. Our work spans SME finance, property and hospitality, enterprise asset management and regulated-sector compliance.

We combine our own software products with bespoke client platforms, and back both with consulting, training and managed services. Clients work with one accountable team from the first workshop through to live operation and ongoing support.

The company was incorporated on 27 January 2026 under the Companies and Allied Matters Act 2020 and is registered with the Corporate Affairs Commission of Nigeria. Our office is in Wuse 2, Abuja.

AT A GLANCE

Registered name	Ivano Technologies Ltd
Registration	RC 8736090, Corporate Affairs Commission
Incorporated	27 January 2026
Company type	Private company limited by shares
Headquarters	Wuse 2, Abuja, Nigeria
Focus	Software products, client platforms, consulting and managed services

What we are here to do.

MISSION

To build dependable technology that helps African organisations run better, meet their obligations with confidence and grow.

VISION

To be the technology partner that businesses, institutions and regulators across Africa trust with the systems they depend on.

OUR VALUES

01

Reliability

Systems that work on an ordinary Tuesday, not only in a demonstration. We design for uptime, support and long-term maintenance.

02

Clarity

Plain language, clear scope and honest timelines. Clients always know what is being built, why and what it will cost.

03

Local fit

Products shaped around Nigerian tax rules, regulation, languages and business practice rather than adapted from elsewhere.

04

Integrity

Careful handling of client data, transparent working practices and accountability for the quality of what we deliver.

03 SERVICES

From first idea to live operation.

Our service lines follow the objects set out in the company's Memorandum of Association. Each can be bought on its own or combined into a single programme of work.

01

Build

- Software development and application design
- Systems integration and database management
- Cloud services and hosting architecture
- Artificial intelligence and data analytics
- Digital transformation programmes
- Research, pilot projects and feasibility studies

02

Secure and run

- Cybersecurity solutions
- Managed IT services and helpdesk support
- Infrastructure management
- Supply, installation and maintenance of computers, networking and telecommunications equipment

03

Advise

- IT strategy and enterprise architecture
- Systems audit and process automation
- Technology project management
- Management consulting, operational support and business process outsourcing
- Technical training, digital skills development and certification programmes

04

Grow

- Digital marketing and online advertising
- Branding, content development and social media management
- Digital campaign execution
- Partnerships, joint ventures and agency arrangements
- Licensing and management of software and intellectual property

05

Supply and contract

- Service, supply and outsourcing agreements
- Technical support and maintenance contracts
- Project execution contracts for corporations, NGOs, government agencies and individuals

04 PRODUCTS

Software we build, own and support.

Our products are cloud-based and available through a web browser. Each is developed and maintained in-house.

Kompleet

Bookkeeping and invoicing software

kompleet.techivano.com

Bookkeeping and invoicing software for Nigerian small and medium-sized businesses, built around how they keep their books and bill their clients.

- Bank statement imports
- Clean monthly financial reports
- Invoices carrying your own brand

Ivano PMS

Property management system

pms.techivano.com

Property management software for hospitality businesses, bringing bookings, guests and units together in one place.

- Bookings and reservations
- Guest records
- Unit management
- Channel messaging

NRCS EAM

Enterprise asset management

nrcseam.techivano.com

Asset management software for organisations that must track, maintain and account for large asset portfolios.

- Asset register
- Work orders
- Preventive maintenance
- Inventory
- Compliance tracking

05 SELECTED WORK

Platforms delivered for clients.

Alongside our own products, we design and deliver bespoke platforms for organisations with specific requirements.

JUO Campaign

Campaign website

votejohnupanodey.com

A public campaign website for the John Upan Odey organisation.

NMDPRA Dashboard

Survey and compliance dashboard

nmdpra-dashboard-techivano.vercel.app

A live survey and plain-language compliance dashboard for NMDPRA, presenting regulatory information in a clearer, more accessible form.

06 HOW WE DELIVER

A clear process, a single accountable team.

01

Discover

We start with workshops and a review of existing processes, data and constraints, then agree scope, outcomes and a delivery plan in writing.

02

Design

We prepare the system design, data model and user flows, and review them with the client before development begins.

03

Deliver

We build in short iterations with regular demonstrations, so the client sees working software early and can direct changes while they are inexpensive.

04

Support

We deploy, train the client's staff and stay on to provide hosting, maintenance and helpdesk support after go-live.

CORE CAPABILITIES

- Web and mobile application development
- Cloud deployment and database engineering
- Data analytics and artificial intelligence
- Cybersecurity and managed IT
- Training and capacity building
- Hardware and network supply

SECTORS WE SERVE

- Small and medium-sized businesses
- Property and hospitality
- Asset-intensive organisations
- Regulators and public-sector bodies
- Non-governmental organisations
- Campaigns and advocacy
